

soothe the sniffles away

WITH OUR *new* ORGANIC CHEST STICK!

easy to use
RUB ON
no mess

Our Organic Chest Stick for sniffly little ones is a solid stick that rolls onto the upper chest and back of a child, and may help to ease the symptoms of colds. Being organic, it contains no harmful chemicals.

The solid stick blend is applied directly to the body of a baby, so there is no residual oil left on Mum's hands.

Eucalyptus essential oil is one of the most valuable oils for treating the respiratory system. Combined with gem essences to support the emotional body of a child, the blend is calming and soothing to little ones.

Working with respected retailers such as Wholefoods, we are gathering respect from the industry while

remaining committed to our vision of building a strong foundation for children with products that promote self-empowerment and self-awareness.

Organic Chest Stick: 50g 1.8oz

easy to use
RUB ON
no mess
