Pitta Patta

pittapatta
for heart & soul

Founded in Australia in 2006, Pitta Patta combines the creativity and wisdom of Alex Field, a qualified naturopath, mother and intuitive healer.

Pitta Patta has grown to encompass distribution networks and suppliers in both Australia and the UK, as well as countless internet-based customers.

Through its rapid growth Pitta Patta has kept true to its core promise of providing a high quality range of natural children's products made with love and a little magic.

Alex remains hands-on and continues to run the company in Australia, while her sister Harriet (also a qualified Naturopath and Mother) runs the UK/Europe office from England.

All Pitta Patta products have a foundation in naturopathy, giving them a therapeutic edge and a point of difference. They combine essential oils, herbal ingredients and gem essences, all with unique properties.

The Pitta Patta "Everyday Essential Elly" range consists of six products.

- Cheeky Baby Barrier Cream
- Calm and Content Moisturising Lotion
- Chest Stick
- Squeaky Clean Shampoo/Bodywash
- Bubbles and Cuddles Bubble Bath
- Happy Hands Liquid Soap

Cheeky Baby Barrier Cream contains a herbal blend of Calendula, Comfrey and Marshmallow, all very soothing herbs that have the ability to repair and heal skin tissue. This product has become very popular with babies

and children who suffer from eczema and nappy rash.

The Organic Chest Stick is one of the most innovative products in the market place for coughs and colds. It is an easy to use roll on, that can be applied to the chest and back of babies and young children. Its key ingredient, Eucalyptus Oil, is one of the most valuable oils for treating the respiratory system because of its germicidal and antibacterial qualities.

The Calm and Content Moisturising Lotion has calming essences which, combined with Lavender and Chamomile essential oils and Shea butter, create a soothing and relaxing lotion for the skin (physical) and mind (emotional) – good for cradle cap, dry skin and for those children/babies who are unsettled.

All of the products in the Pitta Patta range contain unique gem essences and most products are Organic Soil Association approved.

Founder Alex Field has been treating both children and adults for many years using healing gem essences. The essences work on an energetic level to help heal vibrationally.

Pitta Patta is endorsed by mothers and midwives, plus Janie Lee Grace had this to say about their latest range, "I am very proud of this lovely range of organic baby products by Pitta Patta. They leave the skin feeling soft and nourished plus they smell heavenly. A safe range for the whole family to use, made with love and a little magic."

Pitta Patta is stocked in Wholefoods, various independent health food shops, Natural Health Clinics, naturisimo.com plus other stores throughout the world. ■
